## Fuyo Kaiun Co., Ltd.

## Scope of Environmental Management System

Documented Information No. FYEMS-4.3 for Common Date: 1st September 2017

Based on the determined External/Internal Issues pursuant to Standard 4.1 of ISO14001:2015, the determined Compliance Obligations pursuant to ISO Standard 4.2 and our organization's activity/product/service together with other factors to be considered, such as the organizational unit, function and physical boundary (which are to be read as SITE), according as the requirements under ISO Standard 4.3, the Scope of our Environmental Management System shall be determined as follows;

SCOPE	Office of Organization across-the-board, All of Owned Vessels and Managing Vessels (Tankers & Bulkers)
SITE	(Refer FYEMS-5.3(3) as the Organization Chart for details)

In conjunction with the above determined scope and site, the organization's activity, product and service are set out as follows;

Activity: Carriage of Cargo for Sea Trade using the Owned/Managing Vessels

Product: Marine Transportation/Ship Management in Satisfactions of Customers as the Interested Parties
Service: Safety Delivery of Cargo and/or Provision of Well-Managed Vessels to the Interested Parties

Remarks: This documented information shall be available to the interested parties on their demands and/or by means of their discretinary access to our organization's web-site where this has been posted.
